Build-A-Rally kicked off in true 2020 style with confusion over technology and the ever-present Zoom, but the team recovered and were able to bring you the opening ceremony to the biggest campsite a rally has seen, spanning countries and continents! With great attendance at both the virtual campfire and the games on GatherTown, the evening continued until late with plenty of tea-light-burned fingers and an impromptu departure by many after a seemingly ill-fated attempt at a campfire song over Zoom. Overall a relatively successful endeavour for an event transplanted from muddy campsites to the comfort of your own home!

Today is kicking off with a bunch of great activities from campfire songs to whittling, art attack giant pictures and a construction project for the ages - the pringle ring challenge!

Later there'll be plenty of great activities including our very own construction challenge badge as well as the highly anticipated (possibly mostly by the committee) live escape room.

Make sure to keep an eye on the programme so you don't miss out on any of the great activities coming up this weekend!

Love what SSAGO USW have been up to in their hi-vis! Better showing than some of the rally committee...

Constructive Comedy

-I watched a documentary about how they fix steelwork together last night. It's riveting stuff!

-I was offered a construction job in Egypt this morning. Turned out to be a pyramid scheme!

-I'm working on a joke about road construction. Give me a few months to lay it all out!

We want to see your best Build-A-Rally memes! We've been keeping an eye out but the discord seems pretty dry 🙄

While we're all missing the joys of muddy boots and rattling marquees, hopefully your first virtual rally can give you just as many amazing experiences and form just as many memories!

Please feel free to send plenty of your great pictures and videos at rally.ssago.org/pages/photos and submit any great rally stories through report.ssago.org

Possibly the cutest toasting of a marshmallow we've ever seen!
