## SOUTHERNER MISTAKES GEORDIE FOR A SCOT - SCOTS NOW CONSIDERING ENGLISH INVASION

Build-A-Rally has continued in all its construction-y glory with much enthusiasm for the construction challenge and some excellent towers, logos, and house plans coming out of it! Art Attack also turned out to be a hit with some amazing big pictures including the digger shown below.

There were two attempts at rescuing a mascot from the exec in the live escape room and while only one succeeded there was some amazing puzzle solving in both and it was a session thoroughly enjoyed (no photos yet for fear of spoilers!). There was also some success in activating the SSAGO minibus beacons so congratulations to those teams!

Others enjoyed the baking competition, and it seems that winning over a Southampton-based judging panel is best done with dolphin biscuits! There was also a treasure hunt around York castle museum with Glasgow and Liverpool winning after some challenging finds and some great work in combining items required in the scavenger hunt and up to 14km covered by some in pursuit of scavenged items!

### Ceilidh Chaos

Even when separated by many miles and pandemic restrictions SSAGO still loves a good ceilidh and there was a great showing last night with live music from national quartermaster Joe! How could you expect a construction themed event not to have you create not only your very own dance routine but your dance partner? Build-A-Ceilidh indeed.

### Build-A-Rally Programme

9:00-13:00 Chosen Activity 3  
13:00-14:00 Lunch  
14:00-18:00 Chosen Activity 4  
18:00-19:00 Closing Ceremony

Today's activities kicked off at 9 this morning but there's plenty still to do! Keep an eye on the discord for updates on your activities and dont forget to take plenty of pictures, the closing ceremony will take place this evening and more information will be sent out about it later!
